

Scholarship Packet

The goal of the scholarship program at Montana Bible College is to provide funds to students whose heart for God, long-term commitment to ministry, academic performance, and financial need warrant assistance from the College. Students who receive scholarship funds from MBC should *compel* the College to invest in their lives. We believe strongly in the personal responsibility of each student to plan for and be able to pay the cost of choosing to be a student. Further, we believe that graduates should not be hindered from fulfilling the ministry to which God has called them because of the burden of college debts; therefore, MBC is committed to providing quality education at an affordable cost. Since MBC's tuition only covers a portion of its operating expenses, this education is possible because God has placed generosity in the hearts of individuals, churches, and alumni who believe in the eternal value of Bible college education. These people are passing on a trust to our students because they expect God to do great things through them.

MBC does not accept any direct or indirect federal financial aid. Why? The cost of administering Title IV funding in small schools like MBC is greater than the funds students would receive from federal financial aid. More significantly than the pragmatic reason, accepting student loans can create an unhealthy institutional dependence on money that may not always be there, and loans become a significant burden and hindrance to ministering where God wants His people. Montana Bible College wants *God* to receive the glory for assisting our students in their education.

Scholarships for New Students

- **MBC Matching Scholarship** – MBC anticipates that all students will apply to their home church for a scholarship to assist in managing the costs of attending college. A person's home church is normally very supportive of ministry training for one of its own students. MBC has made available a separate application for students to present to their churches. This application outlines the College's philosophy of ministry and financial aid. MBC will match any scholarships from a student's home church **up to \$750 dollars per year**. This matching grant is available to new students and renewable on an annual basis for up to four years based on the church's continued support (the church is invited to give as much as it can). Students must be enrolled for at least nine (9) credits. The application is available at the MBC office or the website.

Scholarships for Transfer Students

- Students who transfer to MBC from another institution of biblical higher education must be of sophomore standing *and* must successfully complete one full-time semester at MBC to be eligible for scholarship funds through the College. See the Scholarships for Returning Students.

Scholarships for Returning Students

The following are requirements returning students seeking to receive scholarship funds from Montana Bible College:

1. Students must be enrolled for at least nine (9) credits each semester toward the completion of either the one-year Certificate in Biblical Studies or the B.A. in Biblical Studies degree program. Financial awards are based on full-time status (12 credits) and will be prorated based on registered credits. For example, a student is awarded a \$500 scholarship for the semester. If the student registers for 12 or more credits, the student receives the entire \$500. If the student is registered for only 10 credits, the award is \$415 ($500 \times 10/12$). Dropping below nine credits at any point during the semester will make a student ineligible for scholarship funds and the College may expect the student to pay back the awarded funds.
2. Students must demonstrate Christ-like character both on and off campus.
3. Students must maintain GPA requirements. (**General requirements are to maintain at least a 2.0. Additional GPA requirements exist for individual scholarships.**)
4. Students must complete MBC's Comprehensive Scholarship Application.

Montana Bible College does not discriminate on the basis of race, color, or national/ethnic origin in the administration of its educational policies, admissions policies, scholarship programs, or other school-administered programs.
